## On Time Completion Rates

### 2017-2018

The on-time completion rate is the number of students that have completed a given program within the allotted hours. Example; The Electricity program is 1200 hours in length. In the 2017-2018 school year, ninety-six percent (88 %) of the students completed the program in the allotted time.

The on-time completion rates for the programs at WTC are as follows:

| Program        | Completers | On Time | Rate | 2017/2018 Placement |
|----------------|------------|---------|------|---------------------|
| ACS            | 4          | 4       | 100% | 100%                |
| ACT            | 11         | 8       | 71%  | 80%                 |
| ARH            | 26         | 24      | 92%  | 95%                 |
| AST            | 20         | 20      | 100% | 89%                 |
| CFS            | 8          | 8       | 100% | 100%                |
| COS            | 16         | 25      | 68%  | 87%                 |
| ELW            | 20         | 19      | 89%  | 93%                 |
| MAS            | 21         | 22      | 96%  | 100%                |
| MAT            | 11         | 11      | 100% | 80%                 |
| NSA            | 8          | 8       | 100% | 100%                |
| PCA            | 22         | 21      | 96%  | 100%                |
| PN             | 29         | 20      | 68%  | 100%                |
| TSS            | 16         | 14      | 89%  | 100%                |
| WLD            | 12         | 11      | 92%  | 78%                 |
| <b>Summary</b> |            |         |      |                     |
| COR            | 18         | 18      | 100% | 94%                 |
| COLE           | 30         | 30      | 100% | 100%                |
| LAW            | 44         | 39      | 88%  | 81%                 |
| LECO           | N/A        | N/A     | N/A  | N/A                 |
